We Always Strive to make our clients happy and to support their success with our productions.

Read what some of them have to say about how we enhanced their projects:

"The video was instrumental in obtaining approval of the Planned Unit Development (PUD) rezoning from the City of Columbia. It received an incredible response from the City and the Public. I was especially impressed with the high quality of the final work product that Wyboo produced. We brought together many complex components, with two of the buildings having detailed architectural plans in the design process. Wyboo's attention to detail was exceptional and my expectations were exceeded. The University was so pleased that they have used clips from the video as part of their master plan showcase that is currently on their website. It has been on there for a couple years now; this says a lot for the value of the final work product that was produced."

Christopher C, Smith, P.E.
Senior Project Manager

"Wyboo made all the difference in the world in our Children's Museum animations. The realistic motion really brought the scenes to life!"

Mark Kitchens
Creative Director
Marketing Alliance, Inc.

"Wyboo has worked with us on several projects and has always delivered with high quality even when the lead time he was given was short. Often we have clients that request lots of last minute changes, and Kevin always came through."

Ralph Boral
Executive Producer
Glueworks Animation

"Wyboo assisted us in revamping several of our agency brochures. They were on target with our message and made sure the brochures were appropriate for the audience receiving the message. Kevin is easy to work with and very much a perfectionist. We have received several compliments on the work they have done for our agency."

Ann Kirven
Director
Clarendon Behavioral Health Services

"Wyboo has a real attention to detail. They took more than a passing interest in our work and exhibited a lot of determination in meeting our timeline. We were very pleased with the quality of their work."

Rick Perko
President
Immersion Media

"When we determined some animation was needed to bring visual appeal to our White Oak Conference Center Web site, we called on Wyboo. Working with Wyboo was so easy and the results were outstanding. What really enhanced our experience was how Kevin updated us along the way and had us check off on the rough elements as he designed the piece. The deliverable was great!"

Roger E. Orman
Associate Executive Director
South Carolina Baptist Convention
